

JUNRUI DI

(Updated Apr 8th 2019)

610 Main St, Cambridge, MA 02139

dijunrui@gmail.com ♦ www.junruidi.com

STATISTICAL METHODS RESEARCH INTERESTS

feature engineering from accelerometry signals, dimension reduction, functional data analysis, integration of multiple modalities, multilevel data.

SCIENTIFIC RESEARCH INTERESTS

wearable devices and their applications in public health (e.g. mental health and aging) and clinical trials (e.g. disease monitoring and assessment), physical activity assessment, sleep, circadian rhythmicity.

EDUCATION

Johns Hopkins Bloomberg School of Public Health

Mar 2019

Ph.D. in Biostatistics

Thesis: *Feature Engineering and Statistical Modeling of Wearable Devices Data*

Advisor: Vadim Zipunnikov, Ph.D.

Georgetown University

Dec 2013

M.S. in Biostatistics

Thesis: *Robust Integrative Analysis of Multi-Block Contaminated Datasets*

Advisor: Valeriy Korostyshevskiy, Ph.D.

University of California, Berkeley

May 2012

B.A. in Applied Mathematics

High Distinction General Scholarship (roughly equivalent to Magna Cum Laude)

EXPERIENCE

Manager Nonclinical Statistics, Early Clinical Development

Apr 2019 - Present

Pfizer Inc.

Cambridge, MA

- Provide statistical and data analytic support for Digital Medicine group with studies where wearable devices are used to assess and monitor diseases.

Research Assistant

Jun 2015 - Apr 2019

Johns Hopkins Bloomberg School of Public Health

Baltimore, MD

- Developed statistical methods to extract features from noisy accelerometry signal, to reduce dimensionality of multivariate accelerometry features, and to integratively analyze features representing multiple physiological domains.
- Conducted data processing and statistical analysis of multiple studies with measurements of sleep, activity, and circadian rhythms using wearable devices.

Biostatistician Intern

Jun 2018 - Aug 2018

Takeda Pharmaceuticals

Cambridge, MA

- Provided theoretical and analytic evidence that digital endpoints measured by wearable devices are more sensitive than traditional measurement.

- Developed an R Shiny App to analyze/visualize clinical data from a chest-worn device used to measure physical activity and cardiovascular behavior to assist clinicians to identify false positive events reported.

Research Assistant

Georgetown University, Medicine

May 2013 - Apr 2014

Washington, DC

- Supported the Multicenter AIDS Cohort Study (MACS) site PI by providing data analysis, visualization, and tabulation on data generated from the 30-year nationwide longitudinal cohort study involving four sites, and over two hundred tested variables.
- Quantified satisficing in MACS online survey based on the group-based trajectory analysis of average response time across visits.

Research Assistant

Georgetown University, Biostatistics

Sep 2012 - May 2013

Washington, DC

- Refined Joint and Individual Variation Explained (i.e. JIVE), a recently developed integrative analysis method of multi-block datasets of different types, to be robust to outliers using low-rank approximation based on robust singular value decomposition.
- Selected metabolomics biomarkers to develop clinical assays for diagnosis and prognosis of Pancreatic Ductal Adenocarcinoma (PDAC) by applying various variable selection techniques.

SOFTWARES

1. **actigraphy** (R package). Feature extraction from minute level actigraphy/accelerometry data.
<https://github.com/junruidi/actigraphy>.
2. **cdHOTS** (R package). Construct and decompose higher order tensorian statistics.
<https://github.com/junruidi/cdHOTS>.
3. **actigraphy-profiles** (R Shiny app). A visualization tool for displaying minute-level actigraphy profiles.
<https://github.com/junruidi/actigraphy-profiles>

PRESENTATIONS

1. Integrative Analysis of Domains of Physical Activity, Sleep, and Circadian Rhythmicity Collected by Wearables. (**invited**). *2019 JSM, Denver, Colorado*.
2. Joint and Individual Representation of Domains of Physical Activity, Sleep, and Circadian Rhythmicity Collected by Wearables (**invited**). *2018 BigDIA, Houston, TX*.
3. Feature Engineering and Statistical Modeling of Wearable Devices data (**invited**). *Critical-Path Institute, 2018*.
4. Capturing Enhanced Information with Higher-Order Tensorian Statistics and Predicting Mortality from Accelerometry-MeasurePhysical Activity (contributed). *2018 JSM, Vancouver, BC, Canada*.
5. Analysis of Tensor Cumulants and Its Application to NHANES (contributed). *2018 ENAR, Atlanta, GA*.
6. Fragmentation of Daily Physical Activity: Prediction of Mortality in NHANES 2003-2006 (oral). *2017 IAGG, San Francisco, CA*.

7. Fragmentation of Physical Activity and Its Application (oral). *2017 ICAMPAM, Bethesda, MD.*
8. Novel Statistical Framework to Quantify Fragmentation of Physical Activity (contributed). *2017 ENAR, Washington, DC.*
9. Fragmentation of Physical Activity and Its Application (poster). *2016 Baltimore Aging Showcases, Baltimore, MD.*
10. Integrative Analysis of Multi-Block Contaminated Datasets (topic contributed). *2013 JSM, Montreal, Canada.*

EDITORIAL ACTIVITIES

PROFESSIONAL ACTIVITIES

Session chair, JSM 2018

Organizer of the JHSPH Biostatistics Computing Club 2015 - 2016

HONORS & AWARDS

BigDIA Travel Award *Sep 2018*

This is the travel award for the 4th International Conference on Big Data and Information Analytics.

The June B. Culley Award *Dec 2017*

This award honors outstanding achievement by a Biostatistics student on his or her schoolwide examination paper.

The Louis I. and Thomas D. Dublin Award *Mar 2017*

This award, which is for the Advancement of Epidemiology and Biostatistics, supports those students whose research focuses on the effective use of statistical reasoning and methods in epidemiology.

Washington Statistical Society Outstanding Graduate Student Award *Jun 2013*

This award is presented by the Washington Statistical Society to the outstanding full-time graduate student of statistics/biostatistics at each university in the Washington metropolitan area with a graduate statistics/biostatistics program.

Phi Beta Kappa Honor Society Inductee

May 2012

Phi Beta Kappa Honor Society
