

# JUNRUI DI

615 N. Wolfe Street E3039, Baltimore, MD 21205

410-955-4394 ♦ jdi2@jhu.edu ♦ [www.junruidi.com](http://www.junruidi.com)

## STATISTICAL METHODS RESEARCH INTERESTS

---

feature engineering from accelerometry signals, matrix and tensor decompositions, dimension reduction, functional data analysis, integration of multiple modalities.

## SCIENTIFIC RESEARCH INTERESTS

---

wearable devices and their applications in public health (e.g. mental health and aging), physical activity assessment, sleep, circadian rhythmicity.

## EDUCATION

---

**Johns Hopkins Bloomberg School of Public Health**

Expected: *May 2019*

Ph.D. in Biostatistics

Advisor: Vadim Zipunnikov, Ph.D.

**Georgetown University**

*Dec 2013*

M.S. in Biostatistics

Thesis: *Robust Integrative Analysis of Multi-Block Contaminated Datasets*

Advisor: Valeriy Korostyshevskiy, Ph.D.

**University of California, Berkeley**

*May 2012*

B.A. in Applied Mathematics

*High Distinction General Scholarship (roughly equivalent to Magna Cum Laude)*

## EXPERIENCE

---

**Research Assistant**

*Jun 2015 - Present*

*Johns Hopkins Bloomberg School of Public Health*

*Baltimore, MD*

- Developed statistical methods to extract features from noisy accelerometry signal, to reduce dimensionality of multivariate accelerometry features, and to integratively analyze features representing multiple physiological domains.
- Conducted data processing and statistical analysis of multiple studies with measurements of sleep, activity, and circadian rhythms using wearable devices.

**Biostatistician Intern**

*Jun 2018 - Aug 2018*

*Takeda Pharmaceuticals*

*Cambridge, MA*

- Provided theoretical and analytic evidence that digital endpoints measured by wearable devices are more sensitive than traditional measurement.
- Developed an R Shiny App to analyze/visualize a clinical study with a chest-worn device to measure physical activity and cardiovascular behavior to assist clinicians to identify false positive events reported.

**Research Assistant**

*May 2013 - Apr 2014*

*Georgetown University, Medicine*

*Washington, DC*

- Supported the Multicenter AIDS Cohort Study (MACS) site PI by providing data analysis, visualization, and tabulation on data generated from the 30-year nationwide longitudinal cohort study involving four sites, and over two hundred tested variables.

- Quantified satisficing in MACS online survey based on the group-based trajectory analysis of average response time across visits.

## Research Assistant

Georgetown University, Biostatistics

Sep 2012 - May 2013

Washington, DC

- Refined Joint and Individual Variation Explained (i.e. JIVE), a recently developed integrative analysis method of multi-block datasets of different types, to be robust to outliers using low-rank approximation based on robust singular value decomposition.
- Selected metabolomics biomarkers to develop clinical assays for diagnosis and prognosis of Pancreatic Ductal Adenocarcinoma (PDAC) by applying various variable selection techniques.

## PUBLICATIONS

Determining survey satisficing of online longitudinal survey data in the Multicenter AIDS Cohort Study using a Group-Based Trajectory Analysis. *Journal of Medical Internet Research Public Health and Surveillance*. 2016; 2(2): e150.

### Preprints / Technical Reports

10. **Di, J.**, Leroux, A., Urbanek, J., R., Varadhan, Spira, A., Schrack, J., and Zipunnikov, V.. Patterns of sedentary and active time accumulation are associated with mortality in US adults: The NHANES study. *bioRxiv*: 182337.

### Under Review / Revision

11. **Di, J.**, Spira, A., Bai, J., Urbanek, J., Leroux, A., Wu, M., Resnick, S., Simonsick, E., Ferrucci, L., Schrack, J., and Zipunnikov, V.. Joint and individual representation of domains of physical activity, sleep, and circadian rhythmicity. Under review *Statistics in Biosciences*.
12. Schmidt, A., **Di, J.**, Zipunnikov, V., Frey, K., Scharfstein, D., O'Toole, R., Bosse, M., Obremskey, W., Stinner, D., Hayda, R., Karunakar, R., Hak, M., Carroll, E., Collins, S., MacKenzie, E.. Is perfusion pressure a reliable indicator of the need for fasciotomy? Under review *The Journal of Bone & Joint Surgery*.

### In Preparation

13. Chen O.Y., Cao, H., Phan H., Gou, J., Qian, T., Reinen, J, **Di, J.**, Cannon, T., and De Vos, M.. High-dimensional whole brain mediation analysis: methods and application in psychosis research. Ready to submit.
14. Capturing enhanced information with higher-order tensorian statistics and its application in accelerometry-measured physical activity. Ready to submit to *Biometrics*.
15. **Di, J.**, Leroux, A., Urbanek, J., Wanigatunga A., R., Varadhan, Spira, A., Schrack, J., and Zipunnikov, V.. Prolonging active and breaking sedentary bouts are independently associated with mortality in US adults: The NHANES study. Ready to submit to *American Journal of Preventive Medicine*.

### SOFTWARES

---

1. **actigraphy** (R package). Feature extraction from minute level actigraphy/accelerometry data.  
<https://github.com/junruidi/actigraphy>.
2. **cdHOTS** (R package). Construct and decompose higher order tensorian statistics.  
<https://github.com/junruidi/cdHOTS>.
3. **actigraphy-profiles** (R Shiny app). A visualization tool for displaying minute-level actigraphy profiles.  
<https://github.com/junruidi/actigraphy-profiles>

### PRESENTATIONS

---

1. Integrative Analysis of Domains of Physical Activity, Sleep, and Circadian Rhythmicity Collected by Wearables. (**invited**). *2019 JSM, Denver, Colorado*.
2. Joint and Individual Representation of Domains of Physical Activity, Sleep, and Circadian Rhythmicity Collected by Wearables (**invited**). *2018 BigDIA, Houston, TX*.
3. Capturing Enhanced Information with Higher-Order Tensorian Statistics and Predicting Mortality from Accelerometry-Measured Physical Activity (contributed). *2018 JSM, Vancouver, BC, Canada*.
4. Analysis of Tensor Cumulants and Its Application to NHANES (contributed). *2018 ENAR, Atlanta, GA*.
5. Fragmentation of Daily Physical Activity: Prediction of Mortality in NHANES 2003-2006 (oral). *2017 IAGG, San Francisco, CA*.
6. Fragmentation of Physical Activity and Its Application (oral). *2017 ICAMPAM, Bethesda, MD*.
7. Novel Statistical Framework to Quantify Fragmentation of Physical Activity (contributed). *2017 ENAR, Washington, DC*.
8. Fragmentation of Physical Activity and Its Application (poster). *2016 Baltimore Aging Showcases, Baltimore, MD*.

9. Integrative Analysis of Multi-Block Contaminated Datasets (topic contributed). *2013 JSM, Montreal, Canada.*

## EDITORIAL ACTIVITIES

---

### Referee for:

Journal of Statistical Software (JSS) [1]

International Association of Gerontology and Geriatrics 2017 World Congress (IAGG) [1]

Journal of Medical Internet Research Cardio (JMIR Cardio) [1]

Journal of Medical Internet Research Mental Health (JMIR Mental Health) [1]

Journal of Medical Internet Research mHealth and uHealth (JMIR mHealth and uHealth) [1]

Interactive Journal of Medical Research [1]

Statistics in Biosciences (SIB) [1]

Journal of Medical Internet Research Research Protocols (JRP) [1]

## PROFESSIONAL ACTIVITIES

---

Session chair, JSM 2018

Organizer of the JHSPH Biostatistics Computing Club 2015 - 2016

## HONORS & AWARDS

---

BigDIA Travel Award *Sep 2018*

*This is the travel award for the 4th International Conference on Big Data and Information Analytics.*

The June B. Culley Award *Dec 2017*

*This award honors outstanding achievement by a Biostatistics student on his or her schoolwide examination paper.*

The Louis I. and Thomas D. Dublin Award *Mar 2017*

*This award, which is for the Advancement of Epidemiology and Biostatistics, supports those students whose research focuses on the effective use of statistical reasoning and methods in epidemiology.*

Washington Statistical Society Outstanding Graduate Student Award *Jun 2013*

*This award is presented by the Washington Statistical Society to the outstanding full-time graduate student of statistics/biostatistics at each university in the Washington metropolitan area with a graduate statistics/biostatistics program.*

Phi Beta Kappa Honor Society Inductee *May 2012*

*Phi Beta Kappa Honor Society*

## TEACHING EXPERIENCE

---

PH.140.623 - **Lab Instructor** Statistical Methods in Public Health III *Spring 2019*

PH.140.621 - **Lab Instructor** Statistical Methods in Public Health I *Fall 2018*

PH.140.623 - <b>Lab Instructor</b> Statistical Methods in Public Health III	<i>Spring 2018</i>
PH.140.621 - <b>Lab Instructor</b> Statistical Methods in Public Health I	<i>Fall 2017</i>
PH.140.623-4 - <b>TA</b> Statistical Methods in Public Health III-IV	<i>Spring 2017</i>
PH.140.621-2 - <b>TA</b> Statistical Methods in Public Health I-II	<i>Fall 2016</i>
PH.140.753-4 - <b>TA</b> Advanced Methods in Biostatistics III-IV	<i>Spring 2016</i>
PH.140.751-2 - <b>TA</b> Advanced Methods in Biostatistics I-II	<i>Fall 2015</i>
BIST 514 - <b>TA</b> Linear Modeling & Multivariate Analysis	<i>Spring 2014</i>
